

**Yesterdays incidents/nearby misses**

- Report on other company for lack of covering and cordoning during cutting of pipe.
- Lack of tidiness on scaffolding in start of “Finger 2”. No use of boxes for tools or materials.

**Today's good HSE behavior:**

Goes to our Rigger: Ronny Hermandsli, who always is positive and make sure that our lifting operations are safe.

NLI HSE records		
	Today	Total
Number of injuries	0	0
Number of serious incidents	0	0
Number of safety walks	2	8
Number of HSE observations	2	37

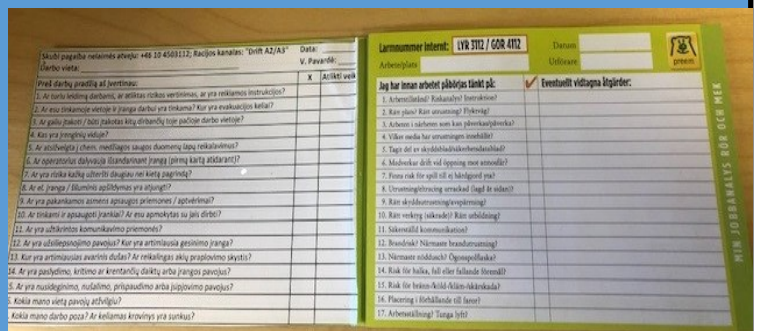

**Think twice:**

Make sure that the fire guard is present before starting any hot work.

**Topic for today's tools box: Personal safety job analysis**

- Make a good analys for each job-”don’t just copy the last one”
- Make sure that all check points are understood
- Allways store it together with the workpermit during the whole operation.
